DETAILED ACTION

Claim Cancellations

- The cancellation of claims 1-21 has been made of record.

Information Disclosure Statement

- The three Information Disclosure statement(s) and related documents that were filed on 1-25-02, 2-25-02, and 9-30-02 have been considered.

Election/Restrictions

- Claim(s) 43 and 44 withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a non-elected Invention I, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 9.
- The requirement is deemed proper and is therefore made FINAL

Claim Rejections - 35 USC § 103

- The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 2833

- Claim(s) 20-42 is/are rejected under 35 U.S.C. 103(a) as being unpatentable over FCI's Jumbo PV Receptacle in view of Miwa (5788542).

-- In reference to claims 20-42, FCI's Jumbo PV Receptacle shows substantially the invention as claimed. However, FCI's Jumbo PV Receptacle does not show a protecting wall portion.

Miwa shows a protecting wall portion 51.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to protect the bent portion of FCI's Jumbo PV Receptacle with the protecting wall portion of Miwa (see examiner's figures) because, as taught by Miwa, the resilient contact piece needs protected before it is placed into the housing (column 1, lines 40-50).

Step 1: Miwa teaches there is a problem with the contact piece like FCT's becoming deformed.

Step 2: Miwa shows putting a protection wall prevents the contact piece from becoming deformed.

Step 3 One skilled in the art uses the teaching of Miwa to reduce FCT's potential for failure

Step 4: All limitations of Claims 22-42 are shown in the Miwa's improvements to FCT's terminal.
